"Now that your shopping cart is ready, go to the Addresses section of your account.

Here click on "Add Address", enter the shipping address of the first recipient, remove the tick from the box "Use the same information for receipt/invoice" and click on the box "I would like to receive an invoice instead of a receipt".

## 4 Now you are ready to send your gifts

You can now place the orders for the different destinations by selecting the correct address for each recipient directly from the shopping cart. If you want to send the same gift to every recipient, you can also reorder the same products by clicking on the "Reorder" button in the Orders section. And just like that...you're all set! We will send you confirmation of your orders and invoices by email and deliver your gifts.

## Would you like to send a message with your gift?

Click on "Is it a gift?" box before proceeding with the payment and write your message. We will add it in the package.
